Sir Winston Leonard Spencer Churchill

Sir Winston Leonard Spencer Churchill was a British Prime Minister of Britain from 1940 to 1955 he won WW2 with the British army. He was born on the 30th of November 1874 and he passed away on the 24th of January 1965.

He has 6 children Randolph Churchill Mary Soemes Diana Churchill Marigold Churchill and Sarah Churchill. Churchills funeral took place 6 days after passing away. He was 90 when he died. In my opinion Churchill is the best prime minister. Because he invented the word summit that means the top of a mountain or hill.

When he got fired he went to USA and saw the American President and said a speech in a giant gym! He won the war from the power of speech. Winston Churchill was half American. 10 years later there was an other war but this time Churchill was

not the prime minister. On the 8th of April 1945 Churchill said that the war was over and we won the war!

We still remember the war by remembrance day and V.E day V.E means victory in Europe. Before that the soldiers were sent to Japan who didn't give up and we attacked the Japanese. We had a giant army. He is probably the best prime minister ever. Well in Britain. He has loads of statues and there in very nice places. He was prime minister for 15 years!

Churchill loved his grandfather and grandmother more than his Mother and Father! That is unusual what did his grandparents do that his parents didn't? Churchill died on the same day as his father but 70 years later! Winston Churchill was a great prime minister and he will always be remembered.
