

Sophie went out with her view finder to search for landscapes to sketch. She has produced a poster for science.

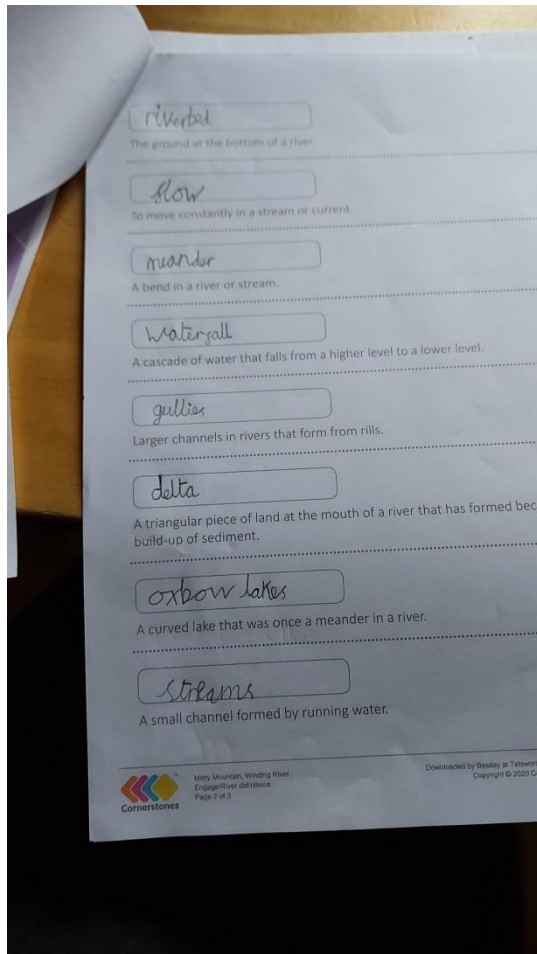

Millie and Eliza Zoomed to work on topic and then Millie took this landscape photo.

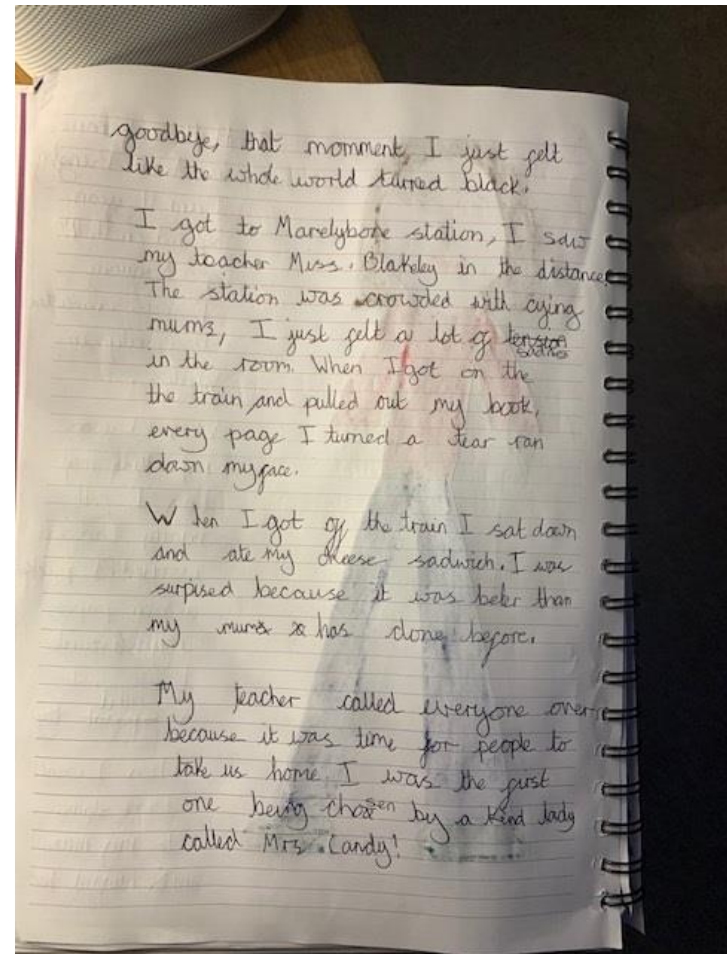

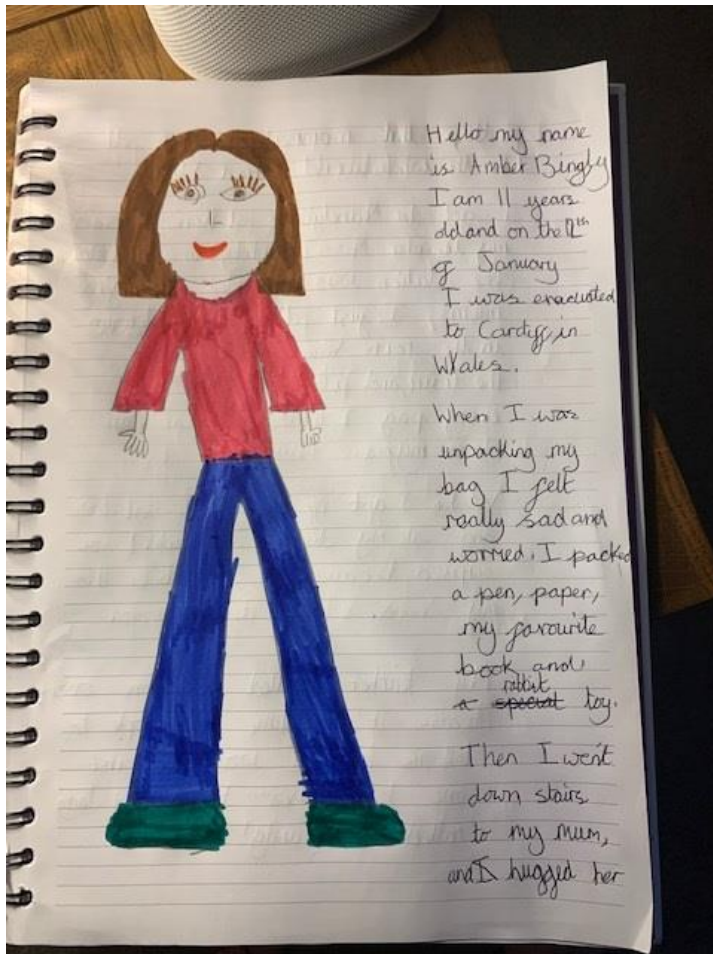

Harvey's evacuee diary

- Dear diary
- I am writing to you to tell you about the evacuation of my school. On the 22 of may 1940, me and many boys had to leave their parents to go to Devon.
- Me and my friend Tukey, waited 3 hours for the train to arrive at Paddington station.
- The carriages fit 14 people and we were in the same carriage as our teacher. She told us to
- put our luggage on top of the seat, she said we wouldn't need them for a while. We were nervous, me and Tukey made up some games to pass the time. It was a long journey to Devon but we finally arrived.

Louie's topic work was neat and accurate. Lucy completed a super landscape painting.
