

Millie – Badger's home and art

More from Millie – rabbit research and letter to the windmill farmer

Millie's sunset – using oils

Work from Oliver

If you look high in the sky you will see a red kite swooping down.

If you look in a tree you'll see a parakeet that is eating bay.

And maybe a parrot eating a carrot.

A you'll shawly see a hawk eating pork

But once they are finished they go to sleep.

ROBIN FACTS!

1! Robins can be orange, black, grey or blue, or all.

2 They can live up to 3 months!

3. A robin live without food for 24 hours exactly!
